

BODY OF PROMINENT PHYSICIAN TAKEN TO SALT LAKE

Following a brief, but impressive, funeral service, held this morning in the Kirkendall chapel, the body of Dr. C. E. Coulter was taken to Salt Lake City and interred in the Mount Olivet cemetery. It was accompanied by the widow and son, Halvor, and several intimate friends.

The Weber County Medical association, members of which had been closely associated with Dr. Coulter during his 26 years of service to the community as a physician and citizen, attended the service in a body, as did also a number of nurses from the Dee hospital, who had been associated with him in his work at that institution. These, with other friends, filled the chapel to its capacity and also paid tribute to the memory of the deceased with floral offerings.

The service consisted of sermon and prayers by the Rev. John E. Carver, which were of impressive import. In the sermon, the pastor spoke of the work of the medical profession as near unto that of Christ and

Dr. C. E. Coulter.

characterized the life of Dr. Coulter as one of sacrifice and service to the people of the communities in which he resided. He also quoted from the scriptures, passages giving promise of a reunion in a future existence.

The pall bearers were Valentine Gideon, Charles Elsenberg, George Barry, Dr. G. A. Dickson, Dr. E. M. Conroy and Dr. F. K. Bartlett.

Chester E. Coulter was born at Mount Carmel, Ill., February 5, 1856. He spent his boyhood at Washington, Ia., where nearly all his family still reside. He attended Cornell college at Mt. Vernon, Ia., and graduated from the medical department of the University of Michigan in 1883.

He practiced medicine at Freeport, Ill., and Los Angeles, Cal., previous to coming to Ogden. He practiced medicine in Ogden since 1889 and was a member of the board of education four years.

Dr. Coulter was one of the best known physicians of Utah and he had a great circle of admirers in Ogden and Weber county. He was outspoken on public questions and stood for clean government and his influence on the side of right was a power for good in the community.

CITY ACCEPTS BONDS FROM THE GAS COMPANY

At the meeting of the city board of commissioners last night, bonds provided for in the recent light and gas franchises extended to the Utah Light & Traction company and the Utah Power & Light company were accepted and the recorder was instructed to file them with the ordinances.

In response to a petition from property owners, asking for lessening the width of the Riverdale road southwesterly from the southern limits of the city from 132 to 99 feet, an ordinance providing for the change was passed unanimously. When the highway is reduced to 99 feet, it will be the same width as Washington avenue.

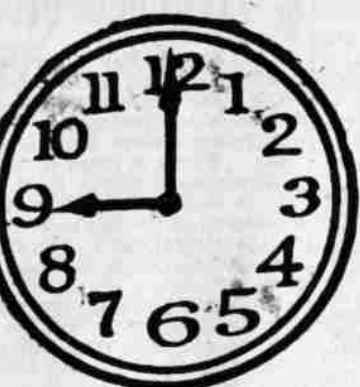

Property owners reported against an alleged nuisance at the Ogden Packing and Provision company's plant on West Twenty-fourth street. It was stated in a written communication that there is not sufficient water in Weber river to carry away refuse from the plant. The com-

munication was referred to the superintendent of public safety, T. S. Browning.

The petition of Fred J. Kiesel, that he be permitted to withdraw certain lands dedicated to the city for alley purposes between Wall and Lincoln avenues, and between Twenty-fourth and Twenty-fifth streets, was referred to Commissioner Flygare, superintendent of streets and public improvements.

Property owners on Twenty-fifth street between Washington and Madison avenues, petitioned the board to readjust special taxes for the paving of Twenty-fifth street, their contention being that stone blocks were removed and the street surfaced with asphaltum, making additional cost to the abutting property. The matter was referred to the committee of the whole and the city attorney.

A communication from the Utah Light & Traction and the Utah Power & Light companies, advising the board that their poles might be used for fire and police alarm wiring was received and placed on file.

LABOR UNIONS PASS RESOLUTIONS ON CITY BOARD

At a meeting of the Ogden Trades & Labor assembly in Union hall last evening, at which every labor craft of the city was represented, a resolution denouncing the action of the city board of commissioners in granting gas and electric franchises to the gas and light companies of the city was unanimously passed.

The franchise question was fully discussed and careful consideration given to all phases. All those present looked upon the action of the city

board of commissioners as a serious thing.

The following resolutions were passed:

"Whereas, Ogden City has granted to the Utah Power & Light company a gas and electric franchise for fifty years without a fair return, while an existing franchise had thirty years to run, thus giving away the rights of two future generations, and

"Whereas, a committee of Ogden citizens asked for two weeks time to assemble facts and figures to show why said franchise should not be granted and were denied that privilege, and

"Whereas, the said committee further asked that the said franchise be submitted to a vote of the people, which was denied them. Therefore be it

Resolved by The Ogden Trades & Labor Assembly, in regular meeting assembled this 13th day of September, 1915, that we denounce the said action and declare the said city commissioners of Ogden to be unworthy of the confidence of a free and enlightened people. Be it further

Resolved, that we commend the Ogden Standard for its fearless disclosure of the high handed methods of the City Board.

The above resolutions were adopted as stated.

(Signed) PAUL STRUPPUS.

O. T. & L. A.—President.

PHILIP FISHER.

O. T. & L. A.—Secretary.

DIVORCE CASES IN DISTRICT COURT

city. The former claims damages in the sum of \$7750 and the latter claims to have been damaged in the sum of \$10,500. Mr. Gideon contends that the city is not responsible for the injuries.

The city attorney also reported that the city would have no legal right to stop the operations of a planing mill in the vicinity of Twenty-sixth and Twenty-seventh streets, and Lincoln and Wall avenues, complained of by residents in that locality.

Department claims in the sum of \$3550.25 were allowed and the auditor directed to draw warrants for the several amounts.

Commissioner Chris Flygare reported favorably to the city board of commissioners this morning on a number of petitions for electric arc lights for street purposes. The report was approved and the auditor directed to advise the Utah Light & Power company to install the arcs as follows:

On Euclid avenue and Thirty-first street; Stephens avenue and Thirty-second and Thirty-third street; Goddard avenue and Washington and Grant; Thirty-third street and Adams avenue; Binford avenue, between Quincy and Jackson avenues; Fifteenth street and Jefferson avenue; Washington avenue at the south end of the river bridge, and on Hudson avenue and Twenty-sixth street.

Miscellaneous claims amounting to \$29 were allowed and the auditor directed to draw warrants to pay them.

Communication from A. B. Canfield, chairman of the committee on parade for the coming Fashion Show, asking

the city to have a decorated car in the parade, was referred to T. Samuel Browning, superintendent of public safety.

ELECTRIC LIGHTS ARE TO BE PLACED BY THE CITY

Requisition papers for A. M. Cornell, alias A. M. Carpenter, are being prepared today and Sheriff T. A. DeVine will go to Kansas City tonight for the man.

Cornell is charged with the embezzlement of about \$800 from the Murphy-Hardy company in October, 1914. He was arrested in Kansas City some time ago on the charge of fraud, but what was done in the case is not known to the officers here.

DeVine received information last evening that Cornell is being held under bond of \$2000, pending requisition from Utah.

DeVine received information last evening that Cornell is being held under bond of \$2000, pending requisition from Utah.

A. M. CORNELL IS TO BE BROUGHT BACK TO OGDEN

Requisition papers for A. M. Cornell, alias A. M. Carpenter, are being prepared today and Sheriff T. A. DeVine will go to Kansas City tonight for the man.

Cornell is charged with the embezzlement of about \$800 from the Murphy-Hardy company in October, 1914. He was arrested in Kansas City some time ago on the charge of fraud, but what was done in the case is not known to the officers here.

DeVine received information last evening that Cornell is being held under bond of \$2000, pending requisition from Utah.

COTTON AND COPPER WILL DECIDE WAR

One great lesson of the European conflict, one year old, has been that shells are every bit as important to success as men. Shells and men, and men and shells, will decide the issue without the developments of any new weapons or Fredericks the Great as

forms of high explosive cannot be manufactured. Without copper, shells are of poor quality, deficient in strength and unreliable.

Great Britain's blockade of the entire German empire is not to starve it to death. That falacy has been exploded. The blockade is to prevent so that Germany cannot continue to turn out high explosive, large caliber shells at the rate of 250,000 a day. And for that same reason Germany attempted to have exempted from the blockade cotton shipments from the United States, and tore the copper doorknobs from the doors of Bruns-

wicken utensils in the public schools and ordered thousands of solid copper statues of the redoubtable von Hindenberg from the Scandinavian states.

It is not the food shortage that is bothering Germany. It is the shortage of copper and cotton, that go to make up the high explosive shells that only can tear up the trenches in which are dug in her enemies on every frontier.
